

A33602 Ambassador

Product Image:

Note:

All sizes noted above are display sizes and not graphic sizes. All graphic sizes must be sized to fit within given boundaries. Also note where hinges are placed so you do not overlap with graphics..

Important Notes:

All files must be setup in a Layered RGB file.

All critical colors must be Pantone listed and no working CMYK builds are accepted. (Include a word document containing PMS colors)

All files must contain a .5" (half inch) bleed on all sides.

All files must be laid out on one document and should not be divided into separate documents.

Do not use InDesign or Illustrator for special effects, drop shadows or especially gradients. Use photoshop if at all possible for all effects.

If color matching is not needed please flatten artwork into a Press Quality PDF for print. (Photoshop CS2 Users only)

This template is for layout purposes only. All sizes should be verified before final production is completed. Copyright 2007. All Rights Reserved
